Chris Peterson, who was suffering from a severe attack of rheumatism last week, is considerably improved.

Chief Grant of Salt Lake City gave what he calls one of his "shot gun" sermons to a house that completely filled the Third Ward meetinghouse last Sunday evening. The chief is one of the most interesting speakers in the state.

## State-Wide Prohibition The Slogan For Fall Campaign

W. Karl Hopkins represented the Lehi City Council at the State Municipal League meeting in Logan last week. The meeting was one of the best ever held. There was a decided spirit of co-operation and get-together instead of the old-time spirit of each town knocking its neighbor.

The principal topics discussed were the enforcement of the prohibition laws and the acquiring of public utilities.

All municipalities seemed to have had considerable trouble in enforcing the prohibition laws, and the trouble in most cases seemed to be due to the fact that nearby towns that had open saloons were supplying the boot-leggers in the prohibition communities with the undesirable booze. So when one of the delegates introduced a resolution pledging all the delegates to work for state-wide prohibition the coming fall, it was adopted without a dissenting vote. The committee on legislation will first endeavor to secure the election of members of the legislature who will pass a state-wide prohibition law, and in case of failure to do this they will draft other temperance laws for the legislature to pass that will help to remedy present conditions.

The league also went on record for the municipal ownership of public utilities. Brigham City, who owns its own electric system, derives a revenue from this source of \$10,000 per annum. Logan also gets a good revenue from its system, while Nephi, because of a limited market, is operating at a loss. Murray has recently installed its own plant, but has not run long enough to give out definite results.

If you are wise You'll Patronize Those who advertise (In this paper).

EVERYBODY'S WELFARE

The above is the name of a magazine that has just been issued and is published by Jack Borlase, a Lehi citizen. In appearance the magazine resembles Elbert Hubbard's magazine and has a most excellent typographical appearance.

The first copy is devoted to a treatise on the Utah-Idaho Sugar company. It is not written with the idea of praising this industry that has done so much to put Utah and particularly Lehi on the map. On the contrary, it is probably the most bitter and caustic arraignment that the local and general management ever received.

Mr. Borlase has held an important position with the sugar company for the past five years, which should give him much inside information. His style is typical of Jack Borlase, and we are inclined to think that some of his conclusions are too severe, but we will leave this to those who choose to go to the book store and give 15 cents for a copy.

Mr. Borlase says that other numbers on other subjects will follow.

LOCAL DRUGGIST MAKES MANY FRIENDS

H. B. Merrihew reports he is making many friends through the QUICK benefit which Lehi people receive from the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika. This remedy became famous by curing appendicitis and it is the most thorough bowel cleanser known, acting on BOTH the lower and upper bowel. JUST ONE DOSE of Adler-ika relieves constipation and gas on the stomach almost IMMEDIATELY.

## Prizes to be Given for Cleanest Towns

James M. Kirkham, Lehi's delegate to the annual convention of the Utah Development League, returned home Sunday from Logan. Mr. Kirkham was enthusiastic over the results of the meeting and the Round-Up in general. The two big things done at the convention were launching the movement for clean towns and a resource survey for the state in general.

The Development League will offer several prizes for the cleanest towns in the state. The cities will be divided into several classes, according to population, and each town will contest against other towns in its class. The commercial clubs, civic improvement leagues and other similar organizations will be asked to co-operate together and offer local prizes for the cleanest lots, etc.

The other important question discussed was the getting out of a resource survey for every community in the state. This survey will show what the people use, what is produced and what each community is capable of producing. For instance, if a community is capable of producing eggs, butter and pork at a profit, yet imports these products from the outside, the survey will show it, and the people be urged to develop their own resources. Lehi at present is working on just such a survey and its success had much to do with launching the state-wide movement.

Mr. Kirkham was the opening speaker on the clean town movement.

## The Drinking Man's Boast

"I can quit any time I wish," is a frequent expression, but why don't the drinker make good his boast? Why don't he quit? When a man brags he can stop drinking whenever he wants to, he has usually reached the point where he cannot. He knows he cannot make good this boast—unaided. He is in need of treatment—The Neal Treatment—which is a harmless vegetable remedy that will transform the terrible craving for liquor into a positive abhorrence for anything alcoholic, in three days' time without the use of hypodermic injections. If you are drinking you should look into this. If you have a friend who needs help, we urge your investigation. Come in and talk it over, or write or telephone for book of information. The Neal Institute, 535 East 2nd South Street, Salt Lake City, Utah. Phone Wasatch 181. Drug Habit Successfully Treated. (Advertisement)

## UTAH-IDAHO EXTRA FINE BEET SUGAR.

## Dissolves Quickly

When you see undissolved sugar in the bottom of the cups after meals, you may be reasonably certain that it is not Utah-Idaho Extra Fine Beet Sugar. It must be an imported product. Such waste is expensive.

Just a little stirring will dissolve Utah-Idaho Extra Fine Beet Sugar, because it is absolutely pure and scientifically processed. No guess work about this sugar.

Another thing! you will find it lustrously white and intensely sweet. A teaspoonful is usually sufficient in tea, coffee or cocoa.

You won't know sugar perfection until you buy and use—
